TELEMETRY

A BETTER WAY TO PERFORM REMOTE CARDIAC MONITORING AT SCALE

About Us

Wellcheck Telemetry is an Independent Diagnostic & Testing Facility (IDTF) with over 100 years of combined healthcare experience. We specialize in Mobile Cardiac Telemetry (MCT), Cardiac Event, Extended Holter, and Standard Holter Monitoring.

Our Mission

We strive to serve our clients and their patients with the highest level of customer service. We customize our solution to ensure service and patient care excellence, guaranteeing you will receive the best care and results in the industry.

All-In-One Patch Solution

Our technology enables Mobile Cardiac Telemetry, Cardiac Event, Extended Holter and /or Standard Holter monitoring in a single reusable device, with the ability to auto-transition from one modality to the next.

Best-In-Class Report Quality

Our experienced Certified Cardiac Technicians follow rigorous standards, with every report reviewed by lab management.

Rapid Report Turnaround

We guarantee End-of-Study reports in 48 hours with STAT reports provided same-day.

White Glove Service

We operate as an extension of your team, adapting to your clinical workflows and providing seamless patient support and device management.

Increased Practice Revenue

Capture additional revenue from Medicare and commercial insurers.

Flexible Contract Options

Split Bill, Subscription-Based or Fee-For-Service agreements are available to suit your business model.

S-PATCH[®] EXL

Digital Healthcare Cardiac Device Developed by Samsung

WellCheck's device is the smarter, simpler solution to track cardiac monitoring

11 Days Test with a single battery

11g Light & Comfortable Wear

WellCheck's monitor uses standard electrodes that can be customized to accommodate patient needs, including specialized options for sensitive skin and pediatric use.

All you need for multi-modality monitoring

Effortlessly transition from Extended Holter to MCT studies with zero patient or clinician interaction

Clear P-Wave

Lead II position visualizing intact P-waves

Showerproof

Water resistant patch (IP55 grade)

Cable-Free Monitoring

- Built in memory (0% data loss)
- Secured connection with mobile devices
- Wireless data upload

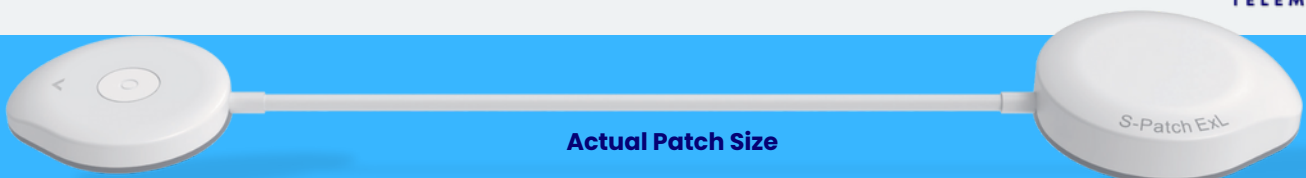

Reusable with Easy Turnaround

Fast and simple replacement of battery and electrodes
